

STRATEGY 2021-2024

OUR VISION

A legal system that delivers environmental justice for communities and the preservation and restoration of nature.

WHO WE ARE

Environmental Justice Australia is a public interest legal centre using a powerful combination of law and advocacy to protect nature and communities.

WHAT WE AIM TO ACHIEVE

THE CHALLENGE

HOW WE CREATE CHANGE

NATURE

Restore and protect critical habitat and ecosystems to stem the extinction crisis.

CLIMATE

Facilitate a just transition to clean energy for a safe climate.

JUSTICE

Work with First Nations people fighting for Country and communities most vulnerable to environmental harm to achieve environmental justice.

**We are facing a
climate and extinction
crisis and marginalised
communities bear the brunt
of environmental harm.**

BUILD COMMUNITY POWER

EJA can uniquely empower communities with legal and advocacy tools to win environmental justice.

HOLD GOVERNMENTS ACCOUNTABLE

With our in-depth understanding of the law, EJA is well placed to hold governments to account.

FIX FLAWS IN THE JUSTICE SYSTEM

We address problematic power structures in the legal and political systems that lead to environmental injustices.
