Note 1: Statement of Significant Accounting Policies

This special purpose financial report has been prepared for distribution to the members to fulfil the directors' financial reporting requirements under the Corporations Act 2001 and the Australian Charities and Not-for-Profits Commission Act 2012. The accounting policies used in the preparation of this financial report, as described below, are consistent with the financial reporting requirements of the Corporations Act 2001, the Australian Charities and Not-for-Profits Commission Act 2012 and with previous years, and are, in the opinion of the directors, appropriate to meet the needs of members.

The financial report has been prepared on an accrual basis of accounting including the historical cost convention and the going concern assumption.

The requirements of Accounting Standards and other financial reporting requirements in Australia do not have mandatory applicability to Environmental Justice Australia because it is not a "reporting entity".

a. Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks, and other short-term highly liquid investment with original maturities of three months or less.

b. Income Tax

No provision for income tax has been raised, as the entity is exempt from income tax under Div 50 of the Income Tax Assessment Act 1997.

c. Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair values as indicated, less, where applicable, accumulated depreciation and impairment losses.

Leasehold improvements and office equipment are carried at cost less, where applicable, any accumulated depreciation.

The depreciable amount of all property, plant and equipment is depreciated over the useful lives of the assets to the company commencing from the time the asset is held ready for use. Leasehold Improvements are amortised over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

d. Employee Entitlements

Provision is made for the entity's liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits that are expected to be settled within one year have been measured at the amount expected to be paid when the liability is settled.

Employee benefits payable later than one year have been measured at the present value of estimated future cash outflows to be made for those benefits.

Provision is made for the entity's liability for long service leave when an employee reaches 5 years of consecutive service with the company.

Note 1: Statement of Significant Accounting Policies (cont.)

e. Provisions

Provisions are recognised when the entity has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

f. Impairment of Assets

At the end of each reporting period, the entity reviews the carrying values of its tangible and intangible assets to determine whether there is an indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the income statement.

g. Revenue

Revenue is brought to account when received and to the extent that it relates to the subsequent period it is disclosed as a liability.

Grant Income

Non-reciprocal grant revenue is recognised in the profit or loss when the entity obtains control of the grant and it is probable that the economic benefits gained from the grant will flow to the entity and the amount of the grant can be measured reliably.

If conditions are attached to the grant which must be satisfied before it is eligible to receive the contribution, the recognition of the grant as revenue will be deferred until those conditions are satisfied. When grant revenue is received whereby the entity incurs an obligation to deliver economic value directly back to the contributor, this is considered a reciprocal transaction and the grant revenue is recognised in the statement of financial position as a liability until the service has been delivered to the contributor, otherwise the grant is recognised as income on receipt.

Fees for Service

Fees for service are recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Interest Revenue

Interest revenue is recognised using the effective interest rate method, which for floating rate financial assets is the rate inherent in the instrument.

Donations

Donation income is recognised when the entity obtains control over the funds which is generally at the time of receipt.

All revenue is stated net of the amount of goods and services tax (GST).

Note 1: Statement of Significant Accounting Policies (cont.)

h. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

i. Adoption of New and Revised Accounting Standards

During the current year the company adopted all of the new and revised Australian Accounting Standards and Interpretations applicable to its operations which became mandatory.

j. New Accounting standards for Application in Future Periods

No accounting standards issued but not yet effective are expected to impact the company.
